

CarePICS, LLC Showcased CarePICS Remote Clinical Imagery System at Premier Inc.'s Annual Breakthroughs Conference

RALEIGH, N.C. - June 30, 2017 - [PRLog](#) -- CarePICS Remote Clinical Imagery System is one of the medical innovations that was showcased in front of thousands of healthcare providers at Premier Inc.'s 2017 [Breakthroughs Conference and Exhibition](#) on June 27.

CarePICS Remote Clinical Imagery System was debuted during the conference's annual [Innovation Celebration](#). The event recognizes advances in healthcare while highlighting industry suppliers committed to innovation and improving patient outcomes.

"CarePICS, LLC shares Premier's commitment to providing valuable products to our alliance members that are safe, high-quality and cost-effective," said Durrall R. Gilbert, president of supply chain services, Premier. "We believe these innovations can benefit providers as they work to transform healthcare."

Clinicians and other health system members of Premier selected CarePICS Remote Clinical Imagery System to be showcased at the Innovation Celebration due to its uniqueness, ability to have an impact on unmet clinical needs and potential to improve patient care.

CarePICS enables HIPAA compliant patient screening and consults in real time or store and forward formats of wound and dermatology conditions. The auto calibration measuring feature speeds wound measurements while greatly improving accuracy. The application works between iOS and Android smart device platforms and is compatible with major electronic medical record systems. It allows voice, text and imagery sharing between for population health management between care partners in different delivery networks such as hospitals, physician practices, home health agencies and skilled nursing facilities. The enclosed link gives a practical descriptive of clinical use of this tool. www.carepics.com

"We here at the CarePICS company are extremely appreciative of the opportunity to showcase our technology to the thousands of participants attending Premier's annual conference. It was a wonderful podium for a software application development company such as ours to obtain unbelievable exposure. We strongly believe that our tool will enable population health management of wounds in an integrated health delivery network that will change the paradigm of care for this disease state," said Terry Williams, Chief Technical Officer, "and a big shout out to Premier management for staging a truly unique and one of its kind event!"

Any supplier, regardless of whether the company is contracted with Premier, can be considered for participation in the Innovation Celebration. Premier contracts with more than 1,200 suppliers.
